## SUMMARY

A walled military barracks area is located on the northern edge of Uman immediately south of Uman Airfield (Figure 1).

The barracks area covers approximately 85 acres and contains 1 administration building, 4 barracks, 7 storage buildings, 3 vehicle storage and maintenance buildings, a probable gymnasium, an athletic field, 1 support building, a small-arms firing range and a wheeled-vehicle driver-training course (Figures 2 and 3). The proximity of the barracks area to the

airfield and the direct road connection between the airfield and barracks area indicate a possible association.

This installation was covered by KEY-HOLE missions from [REDACTED]

During this time, the construction of 1 new storage building and the addition of 4 figure-8 driver-training courses to the original course were the only changes noted. The area appears to be active year-round.
